

Workshop on Advance Excel

*Workshop by Mr. Asger Ali Masalawala, Principal & COO (Aspect Ratio)
SIIB Auditorium | September 10th, 2022 | 9:00 AM – 12:00 PM |
Batch 2021-23 | Participants – 100+*

On 10th September 2022, the students of MBA Batch 2021-2023 attended a workshop conducted by Mr. Asger Ali Masalawala, Principal & COO (Aspect Ratio), on the topic of Advance Excel. He initiated the workshop in an interactive manner, asking the audience about their expectations from the session, where they placed themselves in their excel learning journey and what their learnings were. After gauging the audiences' prior experience with excel, Mr. Masalawala briefly introduced basic excel, its functionality and its usages in the industry. He also explained how the Aspect Ratio utilised excel as a critical tool to collect and analyse data for research purposes. Mr. Masalawala placed immense importance on acquiring efficient excel skills to be an impressive corporate citizen.

Furthering the session, Mr. Asger Masalawala introduced the basic concepts of excel, demonstrating the functions and formulas to the student audience. The students proceeded to apply the functions on different data sets provided practically. Mr. Masalawala moved on to exciting usages of Excel at an advanced level. The session was highly engaging, with students posing relevant questions for the speaker. The workshop ended in good spirits with Mr. Masalawala encouraging students to continue their excel learning journey.

Key takeaways:

“It was a great learning experience and a chance to dive deeper into the usage of excel functions and formulas. Mr. Masalawala was an excellent instructor, keeping the session engaging throughout.”

- Rashi Gupta, MBA-IB (21-23)

“The session highlighted all the necessary excel skills required in the corporate world. Mr. Masalawala imparted essential knowledge about advance excel in a highly interesting manner.”

- Bhavya Shree, MBA-AB (21-
