

Value Stream Mapping

Speaker's Name & Designation: Prof. Rajesh Dhake, Visiting Faculty, SIIB, Pune

Attendees- SCM Batch 2021-23

Offline – Classroom Number 303 | 5th Aug 2022 | 2.00 pm – 4:00 pm | Participants- 18

On 5th Aug 2022, the Supply Chain Management batch of 2021-23 attended a session by Prof. Rajesh Dhake, Visiting Faculty, SIIB, Pune on the 'Value Stream Mapping.' Prof. Rajesh Dhake initiated his presentation with a small introduction about the topic and walked us through the importance of value stream mapping in any manufacturing plant. He spoke about the various concepts in the domain of Manufacturing such as Lead time, Cycle time, Process optimization etc. He focused on the criticality of learning, in terms of knowledge and the foundation concepts of the topic.

Prof. Rajesh Dhake explained the importance of value stream mapping. He explained the concepts with the help of case studies and real-life examples. He demonstrated multiple concepts with the help of block diagram and also demonstrated how it affects day to day project planning. After the demonstration, Prof. Rajesh Dhake helped students to create the Value stream map of a particular case study.

The session was followed by an interactive Q&A session where the different questions were answered related to manufacturing and process optimization.

Feedback:

"Value Stream Mapping workshop by Prof. Rajesh Dhake is a new topic which provided a new perspective to learn various mapping processes for manufacturing industries. The examples gave us understanding of the real-life problems faced by the industry

- Gopal Patra (MBA-IB)

"Prof. Rajesh Dhake demonstrated the topic in great details with great teaching techniques such as case study discussion and practical applications. The session was very thought provoking and engaging"

- Neha Kabra (MBA-IB)
