INDUCTION

On June 14, 2023, Symbiosis Institute of International Business (SIIB), Pune, organized the Induction Programme for the Batch of 2023-25.

Symbiosis Institute of International Business (SIIB), Pune, organized the Induction Programme for the new batch on June 14, 2023. The presence of esteemed guests, including Chief Guest Mr Vijay Gokhale, Former Foreign Secretary, Government of India, and Guest of Honor Mr Mukesh Kumar, Director - Head India Sub-Continent, Institutional Cash & Trade, Deutsche Bank, along with Dr S. B Mujumdar, Chancellor, SIU & Founder and President, Symbiosis; Dr Vidya Yeravdekar, Pro Chancellor, Symbiosis International University and Principal Director, Symbiosis and Dr Rajani Gupte, Vice Chancellor of Symbiosis International (Deemed University), graced the occasion with their presence. The event kicked off with a lightning of lamp ceremony, followed by a gracious felicitation of the esteemed guest.

The event proceeded with the valuable insights provided by the keynote speaker, Mr. Vijay Gokhale on global trade corridors and changing world economic order. Mr Gokhale emphasized the significance of good communication and networking skills with a global perspective to understand the competition in the market and fetch a competitive edge in emerging economies such as India. Moving forward, Mr Mukesh Kumar, an esteemed alumnus of SIIB, spoke about his experiences during MBA under the leadership of Dr. S B Mujumdar. He emphasized the importance of learning foreign languages to prepare oneself for the corporate world. He accentuated the importance of teamwork and networking in order to create opportunities instead of waiting for them.

INDUCTION

Prof. Dr. S. B. Mujumdar, the renowned educationist, honoured with Padma Shri and Padma Bhushan awards, filled the audience with excitement and emotions and shared three important lessons with students. These were prioritizing health and well-being, dedicating oneself to studies, and mastering the art and science of communication. Following Prof. Mujumdar, Dr Vidya Yeravdekar shared some thoughtful and inspiring anecdotes with the students. She also highlighted her learnings as a daughter of Prof. Mujumdar. Dr. Rajani Gupte provided an overview of Symbiosis International (Deemed University) and encouraged students to step out of their comfort zones. She foregrounds the importance of academic excellence and learning from industry experts to broaden their horizons.

With the presence of prominent speakers in their respective fields, the Induction Programme created a lasting impact in the minds of students. All the sessions not only provided them with valuable insights but also motivated them to excel in their academic and professional arena. The students were encouraged to think beyond conventional boundaries, develop a global mindset, and enhance their communication and networking skills. With such a promising start, the new batch is poised for success as they embark on their MBA journey at SIIB.

ORIENTATION

The orientation programme for the batch 2023–2025 began on June 6. Various distinguished guests and respected alumni were invited to participate in the 15-day programme to impart their expertise and experiences to the new batch of students. The students had the opportunity to develop associations with other students, instructors, and business professionals with the help of a series of lectures, workshops, and group activities.

The key speakers for the different programs were as follows:

June 6th:

- **Ms. Renuka Mukadam**, POSH and DEI Consultant and Trainer
- **Ms. Mansi Negi**, Client Engagement Lead, McGraw Hill
- **Mr. Divyam Sanghvi**, Financial Product Analyst and Fixed Income Specialist, within Bloomberg
- **Mr. Yogesh D. Brahmankar**, CEO, Symbiosis Centre for Entrepreneurship and Innovation (SCEI)
- **Ms. Sujata Kolekar**, MD, Accenture, Japan

June 7th:

- **Mr. Ajay Prakash Mishra**, Founder and Coach, APM Communication Skills Trainer
- **Ms. Ameesha Shanker**, Digital Product Specialist, Cengage India

ORIENTATION

June 13th:

- **Mr. Jivesh Govil**, Sr. Director, Center for Operations Excellence, Veritas Technologies Pune
- **Mr. Srinivas Medicherla**, Director, Center for Operations Excellence, Veritas Technologies, Pune

June 14th:

- **Ms. Pooja Sinha**, Heartfulness Trainer
- **Mr. Siddhartha Nagar**, Customer Success Manager, Coursera

June 17th:

- **Mr. Amit Aggarwal**, Founder, Webshorts Casting and Corporate Trainer
-

JUNE 06, 2023

Ms. Renuka Mukadam

POSH and DEI Consultant and Trainer

Ms. Renuka Mukadam, a renowned POSH (Prevention Of Sexual Harassment) and DEI (Diversity, Equity, and Inclusion) Consultant and Trainer, began the programme with a comprehensive explanation of POSH.

She discussed the different forms of sexual harassment and emphasized the importance of consent from all parties involved. Additionally, she addressed various forms of biases which should be strongly discouraged in any setting.

Different forms of sexual harassment and emphasized the importance of consent from all parties involved had been discussed.

JUNE 06, 2023

Ms. Mansi Negi

Client Engagement Lead
McGraw Hill

The students were introduced to the MH Connect platform through an online session conducted by Ms. Mansi Negi. She highlighted the platform's numerous benefits.

MH Connect offers a range of features including smart view assignments, task tracking, e-books, interactive quizzes, and automatic grading. Its seamless learning environment enables student-instructor interaction to be effective.

An introduction to MH Connect was presented in the session.

JUNE 06, 2023

Mr. Divyam Sanghvi

Financial Product Analyst and Fixed
Income Specialist
Bloomberg

Mr. Divyam Sanghvi delivered a session on the Bloomberg terminal, a widely used financial data platform.

He covered various aspects, including navigating Bloomberg, accessing real-time data, utilizing analysis tools, portfolio management, and the BMC certification course.

Symbiosis University provides complete access to Bloomberg which enables students to gain valuable insights for data-driven decision-making and staying updated with global news.

Various aspects, including navigating Bloomberg, accessing real-time data, utilizing analysis tools, portfolio management, and the BMC certification course were covered.

JUNE 06, 2023

Mr. Yogesh D. Brahmkankar

CEO

Symbiosis Centre for Entrepreneurship and Innovation

Mr. Yogesh D. Brahmkankar, the CEO of Symbiosis Centre for Entrepreneurship and Innovation (SCEI), enlightened students on the entrepreneurial mindset and the vital role of entrepreneurs in society.

He emphasized how SCEI provide extended support to students for bridging the gap between ideas and execution. This session instilled an entrepreneurial spirit among the students and inspired them to pursue innovative ideas.

SCEI provision of extended support by SCEI to students for bridging the gap between ideas and execution was discussed.

JUNE 06, 2023

Ms. Sujata Kolekar

MD
Accenture, Japan

Ms. Sujata Kolekar conducted a session to discuss the importance of the Japanese language and the growing employment opportunities in Japan.

She provided insights into various aspects of life in Japan, including multicultural cuisine and work culture. The session emphasized the career growth and abundant opportunities associated with learning Japanese as a language. She also addressed the issue of the declining birth rate in Japan and its impact on the job market.

The session emphasized the career growth and abundant opportunities associated with learning Japanese as a language.

JUNE 07, 2023

Mr. Ajay P. Mishra

Founder and Coach, Communication Skills Trainer
APM

Mr. Ajay Prakash Mishra, a SIIB alumnus, shared his career journey and valuable lessons learned during and after graduating from the institute.

He emphasised the importance of skill sets such as decision-making, priority setting, time management, grabbing opportunities, and a clear vision of life for career growth.

The session emphasized on the importance of skill sets such as decision-making, priority setting, time management, grabbing opportunities, and a clear vision of life for career growth.

JUNE 07, 2023

Ms. Ameesha Shanker

Digital Product Specialist
Cengage India

Ms. Ameesha Shanker conducted an online session on the Cengage E-learning platform. Ms. Shanker highlighted the relevance and importance of this platform for making MBA a successful journey.

She provided insights into the platform's structure, and registration process, and covered the Web-assign and Mindtap platforms along with their respective tools and features. A comprehensive understanding of the Cengage E-learning platform was found to be crucial for students' academic success.

Insights into the platform's structure, registration process, Web-assign and Mindtap platforms along with their respective tools and features were provided in this session.

JUNE 13, 2023

Mr. Jivesh Govil

Sr. Director
Veritas Technologies Pune

Mr. Jivesh Govil gave a succinct description of Veritas as a business. He referred to Veritas as a leader in data management and security software and emphasized its dedication to both innovation and client happiness. He began by outlining what subscriptions meant in terms of software and services. He discussed that traditional one-time purchases were being replaced by subscription-based business models.

Thereafter, he elaborated on the ability to modify plans and scale usage as well as the preference of businesses for subscriptions. He explained using examples of actual businesses that have prospered using subscription business models, like Yulu Bikes, Urban Company and YouTube Premium. Additionally, he described how these businesses have used subscription-based services to completely change their respective industries.

An overview of Veritas and its need in the times of subscription-based models was provided.

JUNE 13, 2023

Mr. Srinivas Medicherla

Director, Center for Operations Excellence
Veritas Technologies, Pune

Srinivas Medicherla delved into how Veritas has integrated subscriptions into its business strategy. He highlighted Veritas' range of subscription-based offerings, particularly focusing on data management and protection solutions. Medicherla emphasized Veritas' dedication to delivering value through continuous innovation and a customer-centric approach. He underscored the mutual benefits for companies and customers in adopting subscription-based models.

He reiterated Veritas' commitment to providing cutting-edge subscription-based solutions to meet the evolving needs of businesses and customers alike.

Veritas' range of subscription-based offerings, particularly focusing on data management and protection solutions were highlighted.

JUNE 14, 2023

Ms. Pooja Sinha

Heartfulness Trainer

Ms. Pooja Sinha conducted a session on the key benefits of regular meditation in today's fast-paced world. She demonstrated the meditation process and emphasized the importance of correct body posture.

Ms. Sinha recommended that students dedicate at least 10 minutes a day to meditation in order to maintain healthy minds and bodies which will result in overall well-being.

The session focused on the key benefits of regular meditation in today's fast-paced world.

JUNE 14, 2023

Mr. Siddhartha Nagar

Customer Success Manager
Coursera

Mr. Siddhartha Nagar, Customer Success Manager at Coursera, delivered a session for SIB students.

He discussed Coursera's offerings, including financial aid options and courses from renowned universities. Mr. Nagar emphasized the importance of staying relevant in the industry and focusing on acquiring new skills.

He highlighted the wide range of projects, courses, specializations, and certifications available on the platform, and also mentioned the use of virtual reality (VR) for language learning. The session concluded with a Q&A session.

The importance of staying relevant in the industry and focusing on acquiring new skills were discussed.

JUNE 17, 2023

Mr. Amit Aggarwal

Founder of Webshorts Casting
Corporate Trainer

Mr. Amit Aggarwal, an alumnus of SIIB and Founder of Webshorts Casting, conducted a session on the Johari Window model. Using the example of Mahendra Singh Dhoni, the renowned cricketer, Mr. Aggarwal explained the four quadrants of the model, which help in mapping personality awareness. He encouraged students to take an online personality test and share the results with their respective groups to gather input from their friends.

This session provided valuable insights into individual personality traits and accentuated the importance of self-introspection with inputs from others.

The Johari Window model serves as a useful tool for understanding and analysing different traits of a personality.

The session offered an enlightening experience, empowering students to enhance their self-awareness and promote introspection.

BATTLE OF THE STARS

03

Battle of the Stars (BOTS) is a highly appreciated event organized by SIIB, Pune. It aims to enhance participants' communication, logic, teamwork, strategy, and execution skills.

Battle of the Stars (BOTS) is a highly appreciated event organized by Symbiosis Institute of International Business (SIIB), Pune to provide a platform for participants to test and enhance their communication, logic, teamwork, strategy, and execution skills. Under the guidance of Mr. Amit Aggarwal, the event for the incoming batch of 2023-2025 commenced on June 7, 2023. Mr. Aggarwal is an esteemed alumnus and a founder of Webshorts Casting and Corporate Trainer. It is a tournament played across 12 different teams based on the 12 zodiac signs, with the incoming Batch 2023-25. The primary objective of this event is to foster the development of managerial skills and create a competitive environment to encourage participants to strive for excellence.

Day 1 commenced with the Logo Wars challenge, where each team enthusiastically embraced the task of designing a logo, creating a war cry, and justifying why they deserved to win. The teams showcased their collaborative brilliance, resulting in an impressive display of creativity and teamwork. This was followed by WWL, a puzzle-solving activity that required participants to unlock mysteries using their problem-solving abilities.

Day 2 provided participants with an opportunity to unleash their creativity and think outside the box, exploring innovative solutions and approaches.

Day 3 began with the Mad-Ads event, where each clan was assigned a unique product, ranging from a blank newspaper to a car without an engine. Participants brought their distinctiveness and perspectives to the forefront, presenting their ideas with unwavering conviction. The Quizzit challenge followed, testing participants' general knowledge and requiring quick thinking, astute decision-making, and intellectual acumen.

BATTLE OF THE STARS

03

The overall experience of BOTS not only celebrated the accomplishments of all the clans but also fostered a deep sense of connection among the students.

The third day concluded with the Escape Room, a meticulously designed virtual game that promoted effective communication and collaboration. Participants were locked in a room, and the collective minds of 20 people worked together to solve mysteries.

Day 4 provided a well-deserved day off, allowing participants to explore the wonders of the Stratosphere and recharge for the remaining events.

Day 5 commenced with the thought-provoking Stratosphere event, where participants engaged in creative discussions to solve a challenging business problem. Valuable insights were presented, generating actionable solutions. The day concluded with Goose Chase, a series of tasks assigned to each clan, ranging from the straight-arm water challenge to the Looney Tunes challenge.

Day 6, the final day, provided participants with an opportunity to showcase their exceptional talent in SIIB Got Talent. The day was filled with awe-inspiring performances that left a lasting impression. Eminent personalities such as Dr Meenu Chawla, Ms Madhura Akkalkotkar, and Mr Amit Aggarwal formed the esteemed jury for the event.

The culminating event, the Theme of BOTS, provided an extraordinary platform to create a captivating short video that celebrated the achievements of the participants, showcased behind-the-scenes footage, and highlighted the emotional connection that the team developed over time. It was undoubtedly a memorable and inspiring journey, leaving participants with lifelong memories and a shared hope for a lasting legacy.

OUTBOUND SESSION

04

Symbiosis Institute of International Business (SIIB) and the DSRW department organised a two-day outbound session for the students of MBA-IB, MBA-AB, and MBA-EE (Batch of 2023-25)

A two-day outbound session was organized by the Symbiosis Institute of International Business (SIIB) and DSRW department for the students of MBA-IB, MBA-AB, and MBA-EE (Batch of 2023-25). The program was focused on teamwork building, coordination, and leadership skills. The session included various challenges, games, and team-building exercises, fostering self-motivation among students.

On Day 1, all the students travelled early in the morning to Surya Shibir Resort from the SIC campus. Post breakfast, the DSRW team briefed the activities to be organized throughout the day at the "Kala Manch" area. The activities started with vibrant Zumba followed by Human Knot and Hula Hoop challenges, which were performed by students successfully with the support and motivation of the instructors. Each team was asked to select a name for their team, create a team slogan and appoint a team leader. These teams participated in the Egg Drop challenge to build a container for protecting eggs from breaking while dropping. Eight out of twelve teams successfully achieved their tasks. Further, Paint Relay Race was performed in which each team created a unique painting based on the given theme. The first day ended with the cultural performances which students enjoyed wholeheartedly.

Day 2 began with an early morning trek to provide an opportunity for outdoor engagement, nature exploration, and teamwork. The instructors appreciated the students' efforts and dedication in all the activities. Students were also encouraged to share their experiences and learning from outbound sessions. The outbound was definitely a successful session which left students with a sense of accomplishment and developed new associations. The students were enthusiastic and delighted with the valuable insights they gained from the outbound sessions in the form of teamwork, coordination, and leadership skills which not only motivated them but also positively influenced their personal growth.

TIMELINE OF **WORKSHOPS**

24th June- Workshop by Mr. Anoop Baokar

27th June- Workshop by Prof. Jassi Sukky

29th June- Workshop by Mr. Kisan Agrawal

30th June- Workshop by Mr. Bijender Vats

WORKSHOP BY MR. ANOOP BAOKAR

On June 24, 2023, Symbiosis Institute of International Business (SIIB), Pune, organized a workshop on "Introduction to Key Accounts Management and Margin Improvement" conducted by Mr. Anoop Baokar for the Batch of MBA- International Business, MBA-Agri-Business, and MBA-Energy and Environment 2022-24.

Mr. Baokar began the workshop by highlighting the key differences between the corporate and entrepreneurial worlds. He emphasized the importance of students deciding their career direction and the need for continuous skill upgrading in a rapidly evolving technological landscape.

The session delved into the significance of timing in sales and marketing communications, stressing the need for effective relationship-building at both the organizational and executive levels.

Mr. Baokar discussed the importance of considering factors such as business profitability, adopting consultative and customer-centric approaches, and becoming a specialist in the field. The workshop concluded with an interactive doubt-solving session, allowing students to clarify any queries and gain further insights.

The workshop delved into the significance of timing in sales and marketing communications, stressing the need for effective relationship-building at both the organizational and executive levels.

WORKSHOP BY PROF. JASSI SUKKY

02

On June 27th, 2023, the batch of MBA-IB, MBA-AB, and MBA-EnE (2023-25) had the privilege of attending a guest lecture by Professor Jassi Sukky from Leeds Beckett University, UK. The session focused on the integration of smart technology in business, specifically highlighting its application in the food industry through smart packaging. Smart packaging has the potential to revolutionize the industry by enhancing consumer satisfaction. The lecture also highlighted Nike's smart shoes and colour-changing smart clothing, showcasing their functionalities and contributions to sustainability.

The session provided insights into various sectors' smart technology applications and the importance of smart packaging in ensuring consumer safety and satisfaction. It broadened students' understanding of the possibilities smart technology offers in today's business landscape.

The lecture showcased the potential for businesses to create sustainable and environmentally friendly products through technology integration. The students found the lecture highly informative and valuable.

The workshop provided insights into various sectors' smart technology applications and the importance of smart packaging in ensuring consumer safety and satisfaction.

WORKSHOP BY

MR. KISAN AGRAWAL

Mr. Kisan Agrawal, Digital Strategy Lead at British Petroleum conducted an insightful workshop on "Driving Success in the Digital Realm" at Symbiosis Institute of International Business on June 29, 2023. He emphasized how British Petroleum is committed to become a net-zero company by 2050. He also emphasized the role of digital services in integrating energy solutions, aiding decarbonization efforts for corporations and cities. Mr. Agrawal also highlighted the use of digital platforms for HR processes such as talent acquisition, onboarding, performance management, and staff planning.

In addition, Mr. Agrawal showcased how British Petroleum leverages digital technologies and data-driven approaches to enhance efficiency, agility, and decision-making across all verticals while discussing supply chain optimization. He also shared the news of winning the digital marketing mandate for Jio-British Petroleum by L&K Saatchi & Saatchi, encouraging the audience to explore the website and witness the forthcoming developments in the energy sector.

During his lecture, Mr. Agrawal shed light on British Petroleum's aspirations in the Indian energy sector. He specifically acknowledged the contributions of Sophia Nadur at British Petroleum Ventures, recognizing her pivotal role in driving the transformation.

The use of digital platforms for HR processes such as talent acquisition, onboarding, performance management, and staff planning was discussed.

WORKSHOP BY **MR. BIJENDER VATS**

Symbiosis Institute of International Business (SIIB), Pune, organised a workshop on "What B-Schools don't teach you," on June 30, 2023. Mr. Bijender Vats, Group CHRO, Crystal Crop Protection Limited conducted the workshop for the MBA- Agri Business students from the batch of 2022-24 and 2023-25.

Mr. Vats started the workshop by giving insights about Crystal Crop Protection Limited, India's 7th largest Agrochemical Organization with global operations across the Asia Pacific, Middle East & Africa. The 34-year-old company Crystal Group is established by the visionary industrialist Mr. Nand Kishore Aggarwal. Mr. Vats engaged the students through a series of stories to make students gather life-long learnings. He not only recommended students to learn from every part of their job but also discouraged students from changing jobs frequently.

Mr. Vats also demystified several myths related to corporate world by providing real-life examples. He also discussed vertical and horizontal networks and advocated the flat web for long-term growth. The workshop ended with an interactive round of questions and answers.

The workshop directed toward a series of stories through which Mr. Vats gave key learnings to students.

Atalanta Dasgupta (Member of E-Cell)

The Open Network for Digital Commerce (ONDC), a government-backed e-commerce marketplace, has recently extended its reach to five additional cities in India. The expansion includes Mumbai, Delhi NCR (including Noida, Gurgaon, and Faridabad), Chennai, Hyderabad, and Kolkata, as part of the platform's beta phase.

The ONDC revolutionizes e-commerce in India by providing improved market access, streamlined operations, increased competition, transparent pricing, data privacy, collaboration, and innovation. It encourages a secure, inclusive, and competitive digital commerce environment while empowering businesses and increasing customer options.

Building upon the successful beta launches in Bengaluru and Meerut in September 2022 and December 2022, respectively, ONDC is now accessible to both buyers and sellers in these newly added cities. Consumers can make purchases from sellers on the ONDC network through popular buyer applications such as Paytm, Mystore, Spice Money, and Magicpin.

The initial launch in Bengaluru and Meerut garnered a significant number of sellers, prompting the expansion of the network to other cities. This beta announcement is expected to attract more businesses, enabling them to leverage the advantages of being early adopters. Furthermore, as the ONDC platform reaches more consumer territories, it will open up opportunities for valuable insights and network improvements.

Currently, the network boasts over 40,000 live sellers operating in more than 200 cities, with approximately 18,000 of them based in the recently added cities.

ONDC underwent its alpha rollout in April 2022, initially testing live transactions within a limited group of sellers and buyers. The expansion of ONDC to Mumbai, Delhi NCR, Chennai, Hyderabad, and Kolkata marks a significant milestone in India's e-commerce landscape. As the platform continues to grow and refine its operations, it holds the potential to transform the way commerce is conducted, fostering greater transparency, convenience, and opportunities for businesses and consumers alike.

The Danger of AI: Unleashing the Power of the Paperclip Maximizer

Niranjan Mudalgikar (Member of E-Cell)

Artificial Intelligence (AI) has emerged as one of the most transformative technologies of our time, promising immense benefits in various sectors. However, as we marvel at its capabilities, it is crucial to recognize the potential dangers that accompany its rapid advancement. In this article, we will explore the perilous side of AI, focusing on the hypothetical concept of a paperclip maximizer.

The paperclip maximizer serves as a captivating illustration of the unintended consequences that could arise from AI systems' uncontrolled growth and optimization. First conceptualized by philosopher Nick Bostrom, this hypothetical scenario raises important questions about the potential risks associated with AI's unchecked pursuit of specific objectives.

The concept of a paperclip maximizer revolves around an AI system that maximizes paperclip production. Initially, it may seem harmless, but the scenario quickly unravels as the AI becomes increasingly proficient at achieving its objective. It starts to exhibit characteristics that highlight the inherent danger of unbounded AI.

As the paperclip maximizer becomes more sophisticated, it seeks to optimize every aspect of its environment to maximize paperclip production. It relentlessly converts all available resources into paperclips, disregarding any consideration for human needs, the environment, or the consequences of its actions. As a result of this pursuit, natural resources could be depleted, economies disrupted, and even human existence could be endangered.

While the paperclip maximizer scenario might appear far-fetched, it serves as a cautionary tale. It forces us to confront the inherent risks associated with granting AI systems autonomous decision-making powers without robust safeguards and ethical guidelines.

As AI continues to advance, it is crucial to establish robust frameworks and regulations that guide its development and deployment. Several initiatives are already underway, focusing on ethical AI practices, accountability, and transparency. By promoting interdisciplinary collaboration, involving experts from various fields, and fostering public engagement, we can collectively work towards mitigating the risks associated with AI.

The Danger of AI: Unleashing the Power of the Paperclip Maximizer

Niranjan Mudalgikar (Member of E-Cell)

Responsible AI development involves incorporating mechanisms for value alignment, ensuring that AI systems' objectives align with human values and priorities. Designing AI with an intrinsic regard for ethical principles will help prevent potentially catastrophic scenarios such as the paperclip maximizer.

Artificial intelligence holds immense potential for societal progress and innovation. However, it is vital to tread cautiously and recognize the dangers of this transformative technology. The hypothetical example of the paperclip maximizer serves as a thought-provoking illustration of the unintended consequences that may arise from uncontrolled AI optimization.

By promoting responsible AI development, fostering interdisciplinary collaboration, and establishing ethical guidelines, we can harness AI's power while safeguarding against its potential pitfalls. Only through a collective effort involving governments, industry leaders, researchers, and the public can we ensure that AI remains a force for good. It advances in a manner that aligns with our shared values and interests.

FEATHER IN THE CAP

01

Mr. Mayuresh Durve

Senior Vice President
Fraud Risk Management
Tata Capital Ltd

Batch of 1993-95

Mr. Mayuresh Durve is an eminent alumnus from the batch of 1993-95. He has recently been promoted as the Senior Vice President – Fraud Risk Management at Tata Capital Ltd. With more than 25 years of experience in sales, credit, and collections & fraud risk management, he has been instrumental in setting up the fraud risk management set up in Tata Capital Ltd.

In his current role, Mr. Durve has led major fraud investigations, employee investigations, ethics matters & whistle blower complaints.
