## *Workshop on Driving Success in the Digital Realm*

*SIIB Auditorium | June 29, 2023 | 1:45 PM – 2:45 PM |*

*Batch 2023-25 | Participants – 200+*

*Panellist's Name and Designation: Mr Kisan Agrawal, Digital Strategy Lead, bp*

Mr Kisan Agrawal, Digital Strategy Lead at British Petroleum (bp), conducted an insightful workshop on "Driving Success in the Digital Realm" at Symbiosis Institute of International Business, Pune on June 29, 2023. As an alumnus of the 2009-11 batch, Mr Agrawal shared his experiences and expertise gained while performing different roles in his career from SIIB to British Petroleum.

Mr Agrawal commenced the lecture by emphasizing bp's commitment to become a net-zero company by 2050. He also mentioned the significant role of digital services in integrating energy solutions and aiding decarbonization efforts for corporations and cities. He outlined bp's global business model, which consists of five verticals, each playing a unique role in the organization's operations. These verticals involved oil & gas production assets, integration of natural gas assets with renewables, global energy solutions, upgrading existing services, and developing new products for a cleaner world.

Mr Agrawal also highlighted the digital transformation emerged as a key driver in bp's operations. These technologies encompassed data analytics, AI, IoT, blockchain, digital twins, cloud computing, and cybersecurity. Their integration optimizes energy production, distribution, and consumption which enhances safety measures, improves data storage and processing capabilities, and safeguards critical energy infrastructure. Moreover, Mr Agrawal detailed the utilization of digital platforms for HR processes such as talent acquisition, onboarding, performance management, and staff planning. He also discussed the supply chain optimization achieved through demand forecasting, inventory management, and logistics optimization. Mr Agrawal then shifted focus to bp's aspirations in the Indian energy sector within the next decade. He mentioned the contributions of Sophia Nadur at bp Ventures, who has played a pivotal role in driving this transformation.

Mr Agrawal also emphasized how bp leverages digital technologies and data-driven approaches to enhance efficiency, agility, and decision-making across all verticals. This yields improved operational excellence, customer satisfaction, and sustainability in bp's business operations. He also highlighted the organizational structure of bp, utilizing a matrix hierarchy to enable optimal resource allocation and improved cross-functional collaboration. Further to the session, Mr. Agrawal mentioned about the partnership between bp and Reliance Industries Limited's Jio which was aimed to create a comprehensive destination for fuel stations, electric mobility stations, and convenience stores. ## *Workshop on Sustainability in Packaging – Brand Owner’s Perspective*

*SIIB MDP Room | July 11, 2023 | 02:00 PM – 04:00 PM*

*Batch: MBA EnE and SCM (Batch 2022-24) | Participants – 35*

*Panellists’ Name and Designation: Mr. Debasish Mandal, Regional Head- Packaging Sustainability, Beiersdorf*

On July 11th, 2023, students from MBA E&E and SCM (Batch 2022-24) attended a workshop on 'Sustainability in Packaging – Brand Owner's Perspective.' The workshop was conducted by Mr. Debasish Mandal, Regional Head- Packaging Sustainability at Beiersdorf. The session provided valuable insights into sustainable packaging and Beiersdorf's approach to sustainability.

Mr. Mandal began the session by briefing the history of Beiersdorf and its remarkable growth with the example of the takeover of Nivea. The discussion then delved into their flagship sustainability campaign, "Care Beyond Skin," highlighting how Beiersdorf incorporates sustainability throughout its value chain via extensive R&D efforts to achieve 100% recyclable packaging. By combining unique materials with a low carbon footprint, Beiersdorf has solidified its commitment to reach net zero by 2045. The session also shed light on the role of asset mobilization in R&D in an organization to achieve market leaders' position in their leap towards net zero and achieving a recyclability index of 100%.

In addition to the technical aspects, Mr. Mandal also inspired the students to prioritize evidence, transparency, and accountability in their sustainability efforts. The workshop concluded with an engaging, interactive discussion, allowing students to ask questions and seek clarifications on various aspects of sustainable packaging and Beiersdorf's sustainability initiatives.

### **Key Takeaways:**

*“The session broadened my perspective on how companies like Beiersdorf are dedicated to their sustainability goals and determined to achieve them well ahead of their set timeline. Additionally, it highlighted how packaging alone can significantly contribute to their circular economy objectives.”*

*SIIB, Room No. 308 | July 15, 2023 | 11:00 AM-1:00 PM*

*Batch 2022-24(Finance) | Participants- 50+*

*Panellist’s Name and Designation: Mr. Hrishikesh Malu, Project Manager and Business Analyst, HSBC Global Banking and Markets*

On July 15, 2023, Mr. Hrishikesh Malu conducted a workshop on "Digital Banking and Digitization" for the students of MBA-IB, Finance (Batch 2022–24). The lecture provided students with valuable insights into the BFSI sector trends, focusing on omnichannel banking. Mr. Hrishikesh began the session by elucidating the difference between digitizing and digitalizing and the evolution of digitization from the 1980s to the 2020s in India's fintech sector. Several key drivers of transformation in the BFSI industry such as AI and cognitive analytics, fintech partnerships, blockchain technology, and payments banks were discussed.

Mr. Hrishikesh also shed light on the challenges faced by Neobanks like ensuring profitability and stability, instilling confidence in customers, the lack of offline presence, and the hurdles of entering late in the market. The session concluded with an engaging Q&A round, allowing students to explore the concepts discussed in the workshop.

**Key learnings:**

*"The lecture provided valuable insights into the current state and future prospects of digital banking, emphasizing the importance of striving for excellence in the industry rather than simply increasing its numbers.*

*-Aashi Haldiya, MBA-IB, Finance (Batch 2022-24)*

*"The key learning from the workshop is that the BFSI industry must embrace digital transformation to meet the ever-changing desires of consumers."*

## ***Workshop on “Basics of trading, hedging, and underlying factors that move the market”***

*Webinar | July 20, 2023 | 11:00 AM-1:00 PM*

*Batch 2022-24 | Participants- 200+*

*Panellist’s Name and Designation: Ms. Taru Bakshi, Manager, Trade Finance Services, Bunge Financial Services*

On July 20, 2023, Ms. Taru Bakshi, conducted a workshop for the students of the MBA-IB and MBA-AB (Batch 2022–24) on "Basics of trading, hedging, and underlying factors that move the market". Ms. Taru Bakshi began the session with a comprehensive overview of trading in agribusiness, highlighting three commonly used INCOTERMS: FOB (Free on Board), CNF (Cost and Freight), and CIF (Cost, Insurance, and Freight). She elaborated on how these terms affect the responsibilities and costs between buyers and sellers in international trade.

The session explored the mechanism of market making and price calculation. Students learned about the interplay of supply and demand and how market participants such as buyers, sellers, and intermediaries contribute to the formation of prices. Various pricing models were also discussed to give the students a broader understanding of this complex process. Ms. Bakshi elucidated how unpredictable weather patterns influence the agricultural sector, causing fluctuations in commodity prices and creating opportunities for traders and hedgers.

Further to the discussion, Ms. Bakshi explained the concept of hedging and different hedging strategies using cash positions. Students grasped the significance of mitigating risks and protecting against potential market uncertainties. The interactive Q&A session at the end allowed the students to seek clarification on intricate concepts and gain valuable insights into finance and trading.

### **Key learnings:**

*“The workshop proved enlightening and beneficial and provided us with a solid foundation in trading practices, hedging techniques, and the dynamic factors influencing the market.”*

*-Aashi Haldiya, MBA-IB, Finance, (Batch 2022-24)*

*“Overall, the workshop empowered us to approach the realm of finance with greater confidence and comprehension.”*

**HEDGING**

What is hedging?  
If the movements of commodity prices can impact your business, you might consider hedging to reduce your exposure. A hedge is an investment made to reduce the risk of adverse commodity price movements. Typically, your hedging strategy takes an offsetting position in a derivative or a related security.

**HEDGING RULE OF THUMB**

**FUTURE ACTION:**  
BUYING IN THE CASH MARKET

**TO HEDGE:**  
BUY FUTURES

*Webinar | July 29, 2023 | 11:00 AM-1:00 PM*

*Batch 2022-24 | Participants- 50+*

*Panellist’s Name and Designation: Mr. Alok Agarwal, Equity Fund Manager, Alchemy Capital Management Pvt Ltd*

On July 29, 2023, Mr. Alok Agarwal, Equity Fund Manager, Alchemy Capital Management Pvt Ltd, conducted a workshop on "Technical Analysis" for the students of MBA-IB, Finance (Batch 2022–24). The workshop commenced with an introduction to technical analysis, highlighting its significance in predicting stock prices. Mr. Agarwal emphasised that technical analysis complements fundamental analysis and helps investors make informed decisions in the dynamic stock market.

The workshop covered various aspects of technical analysis, starting with charting stocks, wherein students learned to interpret stock price movements using different charts. Bar charts and Japanese candlestick charts were explained in detail, showcasing how they aid in identifying trends and price patterns.

Furthermore, Mr. Alok introduced the students to point and figure charts as an effective tool for visualising supply and demand dynamics in the market. Major chart patterns such as head and shoulders, double tops, and double bottoms were discussed to enable students to recognise potential reversal or continuation signals. Price-based indicators and volume-based indicators were explored to evaluate price momentum, volatility, and market strength.

The workshop conducted by Mr. Alok Agarwal on "Technical Analysis" proved to be highly informative and beneficial for MBA-IB Finance students. The session ended with an interactive round of questions and answers.

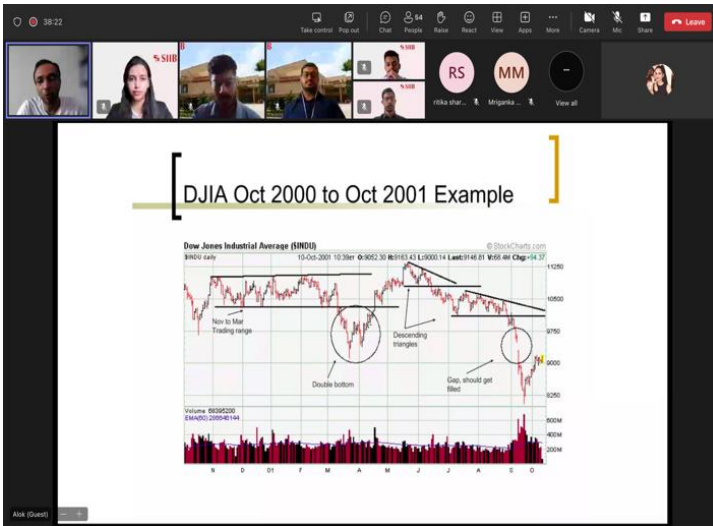

### **Key learnings:**

*“The session provided a comprehensive understanding of technical analysis as an essential tool in equity trading and left the students inspired and better equipped to tackle the challenges of the financial world.”*

- 
- MACD was developed by Gerald Appel as a way to keep track of a moving average crossover system.
  - Appel defined MACD as the difference between a 12-day and 26-day moving average. A 9-day moving average of this difference is used to generate signals.
  - When this signal line goes from negative to positive, a buy signal is generated.
  - When the signal line goes from positive to negative, a sell signal is generated.
  - MACD is best used in choppy (trendless) markets, and is subject to whipsaws (in and out rapidly with little or no profit).

*Workshop on "What we really want from our career"*

*Online | August 9, 2023 | 06:00 PM–8:00 PM |*

*Batch 2022-24 | Participants: 250+*

*Panelist's Name and Designation: Ms. Manisha Keshari, Associate Vice President - HR, Damco Solutions.*

On August 9th, 2023, Ms. Manisha Keshari conducted a workshop for the Batch of 2022–2024 on "**What we really want from our career**" using coaching as a tool. The session revolved around dispelling myths about coaching, exploring the impact of coaching on individuals' lives, and highlighting real-world examples of successful coaching relationships.

Ms. Keshari began the session with an exploration of the concept of coaching. Coaching was described as a process aimed at guiding individuals toward realizing their full potential, enhancing performance, and achieving their goals. She explained how a coach plays a vital role of a 'Drishta' or 'Guru,' offering guidance and wisdom to facilitate the coachee's personal and professional growth. Following that, the importance of choosing a career that aligns with one's talents and abilities was emphasized. Students were encouraged to identify their strengths, passions, and unique attributes to make informed career choices that would lead to greater satisfaction and success.

Ms. Keshari further gave real-life example of Bill Gates being coached by Bill Campbell to illustrate the effectiveness of coaching in achieving outstanding results and also touched upon the coaching relationship between Rajkumar Sharma and Virat Kohli, highlighting the role of coaching in shaping the careers of successful individuals. Ms. Keshari further explained that coaching is about enabling the coachee to speak approximately 80% of the time. This empowers individuals to articulate their thoughts, challenges and aspirations, leading to transformative insights and growth. The coach guides individuals through the journey of exploration and deflection, helping in recognize one's competencies, capabilities, and what truly matters. Following that, the coach highlight the importance of performing a SWOT analysis (Strengths, Weaknesses, Opportunities, Threats) for career positioning. This strategic exercise helped individuals gain a comprehensive understanding of their current position and chart a path for growth.

The session concluded with a role-play between a coach and coachee, demonstrating how coaching can help individuals map their path toward their desired destination, which illustrated the collaborative and transformational nature of the coaching process.

*Panellist's Name and Designation: Mr. Madan Mohan, Director - Crop Strategy, New Products Launch, India and Marketing Head - Sri Lanka & Bangladesh*

On 17th August 2023, MBA – Agri Business students of Batch 2022-24 & 2023-25 attended a guest lecture by Mr. Madan Mohan G on "Career Building and Growth Opportunities in the Agriculture Input Sector." Mr. Madan started the session by emphasizing that the agriculture input sector in India plays a pivotal role in ensuring food security and sustainable agricultural practices. As the backbone of the nation's economy, it offers numerous career avenues for those seeking professional growth, job satisfaction, and impactful contributions.

The lecture highlighted the importance of making informed job choices early in one's career. In the agriculture input sector, aligning one's skills and aspirations with the initial job selection can open doors to rapid advancement and personal fulfilment.

Mr. Madan acknowledged the value of pursuing an MBA while actively working in the agriculture input sector. Integrating prior industry insights into academic pursuits enriches the educational experience and deepens understanding of real-world challenges. Professionals must blend hard and soft skills to excel in the agriculture input sector. Technical knowledge of crop science, fertilizers, pesticides, and modern agricultural practices (hard skills) is complemented by soft skills like effective communication, problem-solving, and teamwork, vital for collaboration, understanding customer needs, and driving innovation.

The session concluded with the message that professionals can make a meaningful impact and contribute to the advancement of the agriculture sector by choosing the right job, honing technical and soft skills, and building connections. In addition, professionals can establish themselves as trusted advisors and build lasting relationships by offering practical solutions.

Hello all,

Thanks for the email and looking forward to an interactive session ahead. I am planning to conduct a real life Business Development case study tomorrow which will bring out a lot of insights to the students. Please ask students to read the case study today and come prepared with their answers. It needs not be a detailed answer but a summary of 5-6 directional points.

Hope above is ok.

Looking forward to seeing you tomorrow!

Thanks

### Why Goodspin diversified?

**Ostensible Reasons**

- De-risk the business from Textiles
- Value added products – high margins
- Cater to new sectors – Baby care
- Lower manpower required sectors

**Business Reasons**

- Subsidies
  - Interest Subsidy - Govt of Gujarat
  - Innovation Subsidy - Govt of India
- Valuation - \$1Bn. How to become \$3 bn

Drivers of key business decisions like diversification can be totally unpredictable!
